Whip Mix Dental Technology Solutions Offers 31 Platforms, 10 Brands of Custom Zirconia Abutments

Louisville, KY: – Whip Mix Dental Technology Solutions is proud to offer Vericore[®] custom Zirconia abutments. Vericore[®] offers custom Zirconia abutments in 31 platforms for 10 major implant systems including Nobel Biocare[™], Straumann[®], Zimmer[®], 3i[™] and many more. Custom designed Vericore abutments allow technicians to recreate natural dentition and control emergence profile. Vericore[®] abutments are milled on Aerospace milling machines, yielding the highest tolerances in the industry. All Vericore[®] abutments are available in 7 natural colors and are made from high strength, high quality Metoxit Zirconia, an industry leader in dental and biomedical Zirconia. Laboratories have 3 options when using the Vericore[®] System: send only your model to Whip Mix; send in your pre-designed waxed-up abutment to Whip Mix for scanning services only *or* design and send your Vericore[®] abutment via your own Vericore[®] scanning system for a lower cost.

For more information about available custom Zirconia abutment platforms offered by Vericore[®] or on owning your own scanner please call 866-301-9801 or visit www.vericoresystem.com.

Founded in 1919, Whip Mix manufactures Hanau[™], Denar[®] and Whip Mix articulators, dental gypsums, investments, waxes, furnaces, mixing equipment and model trimmers for use in dental labs and dental offices. Whip Mix Dental Technology Solutions offers the Vericore[®] System, which utilizes a state-of-the-art CAD/CAM technology to mill custom Zirconia copings bridges and abutments. Whip Mix, headquartered in Louisville, Ky, is ISO9001-2000 certified and sells its products through distributors in over 80 countries and also maintains an office and distribution center in Dortmund, Germany.
